PROFILE

AI & ML engineer-in-training passionate about transforming research ideas into practical, production-ready systems. During my internship at IITM Pravartak, I automated data ingestion, reducing manual processing by ~60%, Dockerized services, and developed CI/CD pipelines for faster deployments. I also worked on an IoT telemetry module integrated with AWS S3. My core skills include Python, ML/NLP, cloud technologies, and web development with React, HTML, and CSS.

EDUCATION

B.E – Computer Science & Engineering (AI & ML)
K. S. Rangasamy College of Technology
Semester V | 2026 | SGPA: 7.81/10

Secondary Education

Velavan Matric Higher Secondary School | Tiruppur | 2022
Percentage : 78%

Higher Secondary (HSC)

Velavan Matric Higher Secondary School | Tiruppur | 2024
Percentage : 85%

SKILLS

Programming Languages:	Python, C
Web Technologies:	HTML, CSS, Three.js.
Machine Learning & AI:	Machine Learning (ML), Natural Language Processing (NLP), CNN, Retrieval-Augmented Generation(RAG).
Frameworks and Libraries:	OpenCV, Pytorch, React.js.
AI models:	YOLO, Terratorch.
Database:	MySQL
Tools:	Framer, Canva, Roboflow, Git, GitHub, Android Studio, n8n, Stitch, Uipath, Blender, Unity, Supabase, Firebase.
Languages Known:	English (Fluent), Tamil (Native).

PROJECTS

- Voter’s Identity Verification System.
- Personalized Student RAG System.
- Developed an E – Commerce Website.
- Simulated VR Knee Surgery

CERTIFICATIONS

Google Virtual Internship (Online) – AICTE | Issued: 2025

Industry 4.0 & IIoT – NPTEL | Issued: 2025

KPR National Level Hackathon - KPRNLH | Issued: 2026

Block Chain Basics – Linkedin Learning | Issued: 2026
